THE FORGOTTEN FOODS
Specializing in Ginseng and Reishi Superior Connoisseur Herbal Tonics

IMMUNE PROTECTION 10th POWER

It is said that you are only as healthy as your immune system is strong. Living in a time when our air, water and food supply are significantly polluted or depleted of its essential nutrients, it becomes necessary to find these life’s essentials in supplemental ways. Our Immune Protection is one such tonic. It is a superior classic connoisseur herbal formulation that has been proven and tested for thousands of years. Protection is one of the primary characteristics of health and, the higher the level of protection the better.

*We think it is essential that everyone over forty consume these herbs every day:* Reishi Mushroom, Astragalus, Rhodiola and Gynostemma. These herbs protect you. They prevent many diseases and they make you healthy all by themselves. They “gobble up” bad things before the have a chance to attack your body. As we get older, our immune system weakens considerably. These herbs strengthen and regulate the immune system. They prevent an enormous range of maladies that afflict everyone, especially older people. In addition, many of our customers swear by this tonic when traveling abroad. They have *testimonies whereby this tonic was their only protection against Malaria and Scarlet Fever*. In addition, it is the perfect food for SPRING ALLERGY SEASON. For those of you who suffer from pollen and other seasonal allergies, we highly recommend you try this powerful formula for natural relief.

However now, THE FORGOTTEN FOODS…REMEMBERED have added the benefits of 16 different Medicinal Mushrooms to the already potent formulation of the IMMUNE PROTECTION TONIC….taking this already phenomenal product to The 10th Power! There are vast examples whereby traditional use of mushrooms has been confirmed by modern science. Research has shown that a blend of medicinal mushrooms increase the medicinal properties immensely, compared to using mushrooms singularly. Our powerful blend has an impressive array of polysaccharides that stimulate a response for the immune system to awaken the body’s natural defenses.

This formula not only offers the medicinal polysaccharides in mushrooms, but also a wide variety of other properties that help improve human health. The Forgotten Food’s unique combination of these macro-sugars has been found to *greatly benefit various forms of cancer*. Many studies have shown that the benefits are anti-tumor, anti-diabetic, immune enhancing, anti-viral, anti-fatiguing, cholesterol reducing, anti-Candida, anti-aging, and enhance the oxygen-absorbing capacity in the lungs thereby enhancing stamina. Our unique combination of these macro-sugars activate a broader spectrum of receptor sites in the immune system with medicinal mushrooms that are rich in 1,3 and 1,6 b-glucans, arabinoxylans, glycoproteins, triterpenes, ergosterol, and antioxidants. These constituents increase the number and activity of macrophages, killer T and NK (natural killer) lymphocytes.
In addition, added to this formula are our prized 77 Plant Derived Minerals™ (PDM) that ensures the proper nutritional support to avoid common deficiencies.

**BENEFITS**

- Prevents degenerative disorders
- Immune enhancing
- Anti-cancer
- Anti-tumor
- Anti-diabetic
- Anti-viral
